Description

Motorguide is excited to introduce the new X3 trolling motor designed to deliver better performance and durability for anglers looking for the best value in the 40- to 70-pound thrust range. The X3 offers best-in-class steering performance. A dual cable pull-pull steering system eliminates slack, while the innovative patent-pending Variable Ratio Technology reduces torque steer feedback and improves responsiveness.

Features
• Durability means reliability - rigid aircraft-grade aluminum mount, stainless steel bushings and outer shaft, and composite shaft with a lifetime guarantee
• Quiet on the water - fewer metal-to-metal interfaces, precision bearings, and new composite locking pins eliminate more noise and ensure noise-free operation over time
• Precision steering - dual cable pull-pull system eliminates slack and provides the best-in-class steering performance
